

St. Cecilia's Public School
ACTIVITIES CONDUCTED BY ECO CLUB
TO COMMEMORATE 31ST WORLD OZONE DAY
FOR CLASSES VIII TO XII

In support of the Initiative by The Ozone Cell of the Ministry of Environment, Forest and Climate Change to commemorate 31st World Ozone Day, Eco Club of St. Cecilia's Public School organized diverse activities for students to spread awareness regarding conservation of ozone layer through the medium of Art in the first week of September.

Art Integrated Activities namely Poster Making and slogan writing were organized for students of classes VIII to XII on the broad theme of Conservation of Ozone Layer. Poster Making Activity was organized on the topic 'Protection of Ozone Layer and Preventing Climate Change by eliminating Ozone Depleting substances and CFC'. Slogan writing Activity was organized on the topic 'Protection of Ozone layer' and 'Climate friendly life style practices to combat Global Warming'. Students beautifully used the play of colours to give the strong message of the immediate need of human intervention in the arena of ozone conservation in an impactful way.

Madam Principal, Madam Coordinators and all the teachers motivated the students to keep on putting the necessary efforts in the big direction of conservation of ozone layer.
