

St. Cecilia's Public School Opening doors to world of wonder – Book Donation Drive

St. Cecilia's Public School has been consistently working laboriously for various social causes. In the month of July, school management and students whole heartedly joined hands in the noble deed of donating books to a NGO Guzarish that provides books to the children from economically weaker sections of the society.

The school collected almost 16000 books that were further donated to the NGO. The applaudable cause was completed by the members of the school Interact club as they volunteered to collect the books from school students. The students were sensitized about the need of hour i.e. sharing and caring.

Madam Principal and Madam Manager encouraged the students to take up noble causes and harness the virtues of generosity and kindness.
