

St. Cecilia's Public School
CBSE CBP Training for Teachers – 01.07.2023
Continuous Professional Development

‘Practice is the most pertinent tool of Learning and Training is the essence of phenomenal transformation’

Our school vision resonates that unless we empower our mentors, we cannot achieve our endeavour of creating 21st century learners. Thus, we have been ardently investing in ensuring the professional development of our mentors. The school hosted a CBSE CBP Training (One Day) on the topic ‘Learning Outcomes and Pedagogies’. The training session was a well defined activity based regime that emphasised that in order to become a truly great teacher – one must go beyond the textbook.

Eminent speakers and CBSE Resource Persons Ms. Malini Narayanan and Dr. Manisha Sharma were received with an honourary welcome by Madam Principal and presentation of saplings. The training revolved around various parameters of student centered learning, innovative pedagogical methodologies, various domains of learning – cognitive, affective, psychomotor as well as the need to inculcate 21st Century competencies in the learners. The objective to go beyond the traditional chalk and talk model of content oriented teaching and create space for value oriented experiential learning in classrooms was accomplished.

At the onset of the post holiday break session, the teachers were equipped and empowered with the contemporary pedagogical tools and techniques to elevate the level of learning experiences. Madam Principal applauded CBSE’s great initiative to empower teachers for students where they can navigate into joyful realms of learning.
