

St. Cecilia's Public School
Commerce Club Activity
E-Commerce Quiz
Topic: Economy and Business awareness

The Commerce club of St. Cecilia's Public School organised an E-commerce quiz on 11th August for the students of class XII C, D1 and D2.

In order to meet the challenging needs of a changing economy and competitive business environment, it is very important for students to be exposed to the outer world in a dynamic way and to be able to face the practical situations. Through the E-commerce quiz we were able to evaluate the knowledge of students within academics as well as beyond academics. They were also made familiar with the prospects of quizzes and objectivity of the questions. The students were able to identify the areas where improvement is needed.

The quiz was divided into 3 rounds viz, economics round, business awareness round and since Independence Day was approaching the 3rd round was related to Independence Day and freedom struggle. This helped us to revive patriotic feelings among our students. Students from each section prepared the questions and PowerPoint Presentations and organised the entire quiz. There were a total of six teams (two teams per section). The students sitting as the audience were also given a chance to participate as one round from each segment was organised for them.

All the students of class XII C, D1 and D2 participated with great zeal. Winners were also announced. It was a great learning experience for the students.
