

**St. Cecilia's Public School  
Hobby Club/Activities  
Primary Wing  
July 16, 2022 (Saturday)**

A hobby is an activity that engages a person for a long time and the person finds self-satisfaction in doing the same. As he/she enjoys working on it, it becomes a part of his/her personality. The School arranges hobby activities on a regular basis.

The main purpose of all curricular and co-curricular activities is creating an environment that is helpful in the all around development of the children. To harness their favourite hobbies and to redefine their tastes we have started several hobby clubs.

To ensure holistic development of the students – mental , physical, psychological development and to hone their creative skills we conducted the various activities on 16.7.22, Saturday for classes IV & V.

The various activities that were held included patriotic song practice, reading session, art and craft activity wherein students prepared a colourful and wonderful rakhi for their brother. They exhibited their latent talent and were very delighted. A drilling on 'Know more about India'(Quiz Club) to impart more knowledge about our country was taken up. Also to tease the brain and to enhance basic mental abilities Maths Club conducted a quiz. Students were very excited and participated enthusiastically. Ms. Meena Rawat, our primary coordinator conducted a life skills session on lesson learnt from nature. Overall, a very enriching and fun filled day.
