Primary Wing
Class Assembly
Harmful effect of Single use plastic
31.01.2024

On January 31st, a special assembly was conducted with a focus on raising awareness about the harmful effects of single-use plastic. The highlight of the assembly was a skit performed by students of Class 3, aimed at educating their peers about the importance of reducing plastic waste.

The skit creatively depicted scenarios illustrating the ubiquitous presence of single-use plastics in daily life and its detrimental impact on the environment. Through engaging dialogue and relatable situations, the students conveyed the message of adopting eco-friendly alternatives and minimizing plastic usage.

Following the skit, there was a discussion segment where students shared their insights and pledged to take individual and collective actions to reduce plastic consumption. The assembly concluded with a call to action, urging everyone to join hands in the fight against plastic pollution and embrace sustainable practices.

Overall, the special assembly served as an effective platform to educate and inspire the school community to actively contribute towards a cleaner and greener future by reducing the use of single-use plastics.
