

**St. Cecilia's Public School
Geekoz IT Club Competition
Primary Wing
Classes: III-V**

"Life is a competition not with others, but with ourselves. We should seek each day to live stronger, better and live each day to master some weakness of yesterday".

Keeping this thought in mind, like every year this year too, IT club organized a competition on 26th April 2023, to bring out the best in kids. The competition was held for classes III to V in Junior Computer Lab. Students were very excited to take part in the competition as they were eager to unveil their creativity and brilliant ideas. They were asked to design beautiful scenery in MS-Paint using all the tools.

Students were well aware about the software and tools to be used. They designed amazing scenes out of their creativity. It was indeed a tough competition and difficult to judge but student came out with excellent results.
