

St. Cecilia's Public School
Eco Club
Labour's Day
Primary Wing

On the event of Labour's day, students were imbued with the value of zero waste and cleanliness. Shramdaan is a way of helping our community and contributing to help and change the environment around us for better.

Voluntary contribution by the students of the Primary Wing towards cleanliness of classes, corridors and ground was done. Students picked up the garbage, done the dusting and cleaned the premises collectively. They picked up the dry leaves and cleaned the garden as well. Later on they shared their experiences and were taught a lesson on shramdaan – by helping various community helpers and the importance of cleanliness.

They also presented a vote of thanks to the cleaning community of the school.
