Map Activity on Physical features of India

A Map Activity was successfully conducted for students of Classes VI to VIII on 10 July 2026 to enhance their geographical understanding and map-reading skills.

Students actively participated by marking important physical features of India, such as mountain ranges, plateaus, plains, deserts, rivers and coastal regions, on the physical map. The activity encouraged hands-on learning and helped students develop better knowledge of India's geography.

Students demonstrated keen interest and actively participated in the activity. Overall, it served as an enriching and interactive learning experience for all the students.
