Map Activity on Rivers of India

A Map-Based Activity on 'Important Rivers of India' was conducted for students of classes VI to VIII on 12 August 2026 to enhance their knowledge of Indian rivers. Students participated enthusiastically by identifying and labeling major rivers of India, including the Ganga, Yamuna, Brahmaputra, Godavari, Narmada and Krishna, on an outline map.

The activity fostered experiential learning and enabled students to develop a better understanding of India's river systems and drainage network. The learners displayed keen interest and actively engaged throughout the session.

Overall, the activity served as an informative and interactive learning experience for all participants.
