Map Activity
Classes IV and V
10.5.2023

Maps show what the world looks like from above. They are useful as they help in locating various places and give information about them.

Students are usually excited to learn through maps. To encourage them, Quiz Club (primary) organized Map Activity for classes IV and V wherein they enthusiastically participated in marking continents and oceans on the World Map and coloured it as well. They shared their own knowledge about the oceans and the continents and were enlightened with more information by their teachers.

The activity was thoroughly enjoyed by students and proved to be fruitful.
