St. Cecilia's Public School
Presentation Competition

Date	**22.10.26**
Classes	**XI, XII**
Topics	**1. Artificial Intelligence: Opportunity or Threat?** **2. Sports and Education: Finding the Right Balance** **3. Extended Reality (AR/VR): The Future of Learning and Entertainment.**

The **Geekoz IT Club** of St. Cecilia's Public School organised a **Presentation Competition for Classes XI and XII** to encourage students to develop their research, critical-thinking, communication and presentation skills.

The competition featured three contemporary topics as stated above. These topics encouraged students to explore emerging technologies, understand the importance of balancing academics and sports, and examine the growing role of immersive technologies in education and entertainment.The participants presented their PowerPoint presentations within the stipulated time of **3–5 minutes**. Following each presentation, the judges asked one or two questions to assess the participants' understanding of the topic and their ability to respond confidently.

The participants were evaluated on the basis of content and research,creativity and originality,presentation skills,visual design and organisation,question-and-answer session.The competition provided a valuable platform for students to express their viewpoints, explore real-world issues and enhance their confidence in public speaking. It also promoted technological awareness, innovation and digital literacy among students.

The event concluded with an appreciation of the participants for their enthusiasm and efforts. The competition proved to be an enriching learning experience, inspiring students to think critically, communicate effectively and use technology creatively.
