“At the age of 3-5 years, Thoms the Tank Engine; Chuk Chuk train are favourite toys.”
-Fatherly, Child Development

Fun Trip to National Rail Museum, New Delhi Classes Nur-Prep & I-II

Benjamin Franklin said “Tell me and I forget, teach me and I may remember, involve me and I learn.” The school organized a field trip to the National Rail Museum on 28.2.24 for bubbly cecilians of classes Nursery to II. The school also organized a pre visit by experienced team of staff members to ensure safety, security and age appropriate fun filled learning of students.

The students were amazed to see the extensive outdoors – variety of steam, diesel and electric locomotives along with a fascinating collection of royal wagons, carriages, armored trains, rail cars and much more. The setting of a railway yard, rail track and train were real life wonders.

The indoor gallery enthralled students as they saw miniature model displays of trains and engines. Remarkable collections of historical photographs, railway artifacts, antiquated items and old furniture impressed the little ones. The major attraction was the JOY RIDE of the JOY TRAIN.

Students also relished the lunch spread and ice cream treat. Time moved swiftly onward and the gleeful students boarded the buses back for the school after an eventful day. The visit was indeed an experiential learning about age old travel – Railways. The trip sinked in as a lifetime memory which the children will always cherish. Their happy faces were the wonderful gratitude expressed as they went home shouting ‘choochoo’ and whistling like an engine.
