

St. Cecilia's Public School
Say Yes to Life and no to Drugs
Primary Wing

Drug is a chemical given to a person or animal to make him/her/it fall asleep or unconscious. It is used by doctors to treat illness. But certain drugs are harmful and their use is banned in many countries. In view of this The Department of Narcotics Control Bureau (NCB) being the premier drug law enforcement agency of the country has been tirelessly working to free our country from the clutches of the drug menace. It is also entrusted with the responsibility of spreading awareness against the ill effects of drugs.

To sensitize the students about the same videos related to the harmful effects of drugs were shown to the students. A pledge was also taken in the class. The main aim of the pledge was to spread the message of ill-effects of the drugs and to strengthen the resolve in making India a drugs free nation. Students, teachers and parents participated in the programme and received a certificate for the same.
