

**St. Cecilia's Public School**  
**COMMERCE CLUB ACTIVITY**  
**SKIT PRESENTATION BY STUDENTS OF CLASS XII D1**  
**TOPIC: PRINCIPLES OF MANAGEMENT**

***“Management is, above all a practice where art, science and craft meet.”***

Commerce Club of St. Cecilia's Public School organised a skit presentation and an Art Integrated Learning activity on 2<sup>nd</sup> May 2023 for students of class XII . The activity was based on 'General Theory of Administration' as propounded by Henry Fayol, a great thinker in the field of management.

Fayol's theory is widely considered as foundational work in classical management theory. He gave fourteen principles of management. Since these principles are universal in nature they can be applied in any organisation, may be a business or a non-business organisation

**Fourteen short skits** were prepared by students showing the application of principles of management given by Fayol. All the students of class XII D1 participated enthusiastically in this activity and played roles of CEO, Departmental Heads, Supervisors and workers. The application of principles of management in real life situations was reflected by the skits presented by them.

It was a presentation of corporate world culture and performance pressures on management with a mix of human emotions, ambitions and expectations. This activity has provided students with great insight into reality of business world, the problems faced by managers and the solutions of these problems with the help of principles of management.

The skit presentation got appreciation from judges and audiences. Best presentations were awarded with prizes.
