

**St. Cecilia's Public School**  
**Enrichment Classes**  
**(Primary Wing)**

The primary wing had a nine day fun filled and enriching online session with the students by the different teachers from 21st May, 2022 for enhancing their skills and clarity of basic and to keep them actively engaged during the vacation. For the smooth functioning of the same, timetable as well as the meeting links for the conduction of the classes were posted on official WhatsApp group.

Most of the students were very excited to be a part of these classes. Activities and demonstrations were conducted by the students and teachers alike. Many videos reinforcing the topics were presented in the class. Teachers prepared ppts to clarify the concepts. Few stories/songs based on the concepts, games, quiz, demonstrations and experiments were shown and conducted in Maths, Science & E.V.S to make the learning process interesting and fun filled. Preparation of summer delicacies such as ice-cream and lemonade was a big hit especially with classes 1&2.

In language – both in Hindi and English, comprehension skills were emphasized upon. Videos of moral stories were presented in the classes to enhance their comprehension, listening, writing and speaking skills. Then questions based on the videos were asked. It was amazing to see them respond enthusiastically. In classes 4&5 they were asked to write the summary of the story and the read out loud in the class.

We really thank Madam Principal for taking this initiative to strengthen the concepts in a more informal and informative manner.
