Online Teacher's Day Celebrations 2020
“One who dares to teach must never cease to learn”

To mark the Teachers Day Celebrations of 2020 amongst pandemic COVID 19, the Cecilian fraternity joined hands to share reverence on the Google Meet Tool of G-suite for Education. A special Class Teacher Live session was organized effectively using digital technology to celebrate the much awaited Teachers Day to pay heartfelt gratitude to Dr. S Radhakrishnan whose birth anniversary is dedicated to teachers to acclaim and applaud their contributions in shaping the lives of students as well as building the nation.

The well planned session began with seeking divine blessings and online relay of Madam Principal's address to motivate and inspire the students in the journey from Offline teaching to online education. Madam Principal extended her good wishes to the undeterred spirit of teachers and students to achieve true education even in these testing times of virtual teaching. The students of Class IX to XII created Power-point presentations and videos to express their reverence and respect towards the school, Madam Principal, teachers and mentors. It was overwhelming to observe the students speaking aloud thankful notes and appreciating the positive influences of their teachers in their life.

Overall, all students thanked Madam Principal for providing arenas of wholesome development to the students. The Presentations clearly showcased how the Cecilian mentors interest and engross students, explain everything in a way which is appropriate and clear to them, set interesting and exciting work, and follow up with a parental care so that their students lead a successful life.

The day set forth a lifelong example of teacher-student bond of respect and regard as together the Online Celebrations brought joy to the heart and smiles to the face of all.
