St. Cecilia's Public School
'WhereDoku' Gaming Competition

Date	**05.11.26**
Classes	**IX,X**
Game	**WhereDoku**

Geekoz IT Club organised a **WhereDoku Gaming Competition** for the students of Classes **IX** and **X** with the objective of promoting logical reasoning, problem-solving skills, concentration and geographical awareness through an engaging digital activity.

The competition was conducted in two levels – **Easy and Medium**, providing students with an opportunity to test their abilities at different levels of difficulty. The Easy Level focused on developing basic logical thinking and familiarity with the game, while theMedium Level challenged students with more complex puzzles that required greater concentration, analytical thinking and strategic planning.

Students participated enthusiastically and demonstrated keen interest, quick thinking and effective problem-solving skills. The competition also received encouragement and appreciation from the respected Principal Ma'am, who interacted with the participants, motivated them and personally explored the game to understand its concept and functioning.

The event was a successful initiative by Geekoz IT Club, encouraging experiential learning through educational games and promoting the use of technology for developing essential 21st-century skills.
