

St. Cecilia's Public School
Primary Wing
ECO Club
Flower Show
Date – 10.3.23

A thing of beauty is a joy forever. The nature is at its best in the Spring season. The fresh, lush green new leaves on the trees, the flowers blooming everywhere are a wonderful sight. The Eco club organised a flowers show. A rich variety of colourful flowers, ornamental plants were put on display in the school premises. The students of various classes went around and enjoyed the show.

The aim was to create awareness about the names of various flowers, ornamental plants and trees, and also to make them appreciate the beauty of the nature.

The students on duty confidently spoke about the names and the important features of the plants. The Principal Madam also graced the occasion and appreciated and applauded the efforts of the students and the teachers of the Eco club.
